

Lab: Creating a Web Form

1. Textbox control:
First Name, Surname, User Name, Email, mobile number, zip code
2. Password control: Password field and Confirm Password field.
3. Date control: Date of Birth
4. Dropdown list control: Country
5. Radio buttons: Local resident or foreign
6. Checkbox control: To receive emails
7. Button controls: Submit and Cancel

Sample source code for a form using Bootstrap:

```
<div class="form-horizontal">
    <h4>Working with Server controls</h4>
    <hr />

    <div class="form-group">
        <asp:Label runat="server" CssClass="col-md-2 control-label">Product name</asp:Label>
        <div class="col-md-8">
            <asp:TextBox runat="server" ID="txtProdName" CssClass="form-control" />
        </div>
    </div>
    <div class="form-group">
        <asp:Label runat="server" CssClass="col-md-2 control-label">Description</asp:Label>
        <div class="col-md-8">
            <asp:TextBox runat="server" ID="txtProdDesc"
            TextMode="Multiline" CssClass="form-control" />
        </div>
    </div>
    <div class="form-group">
        <div class="col-md-offset-2 col-md-8">
            <asp:Button runat="server" Text="Add Product" CssClass="btn btn-block btn-primary" />
        </div>
    </div>
</div>
```
